

# Capability Statement

## Our Medical Capability

We provide leading medical IT support to ensure systems and processes in medical practices and healthcare clinics remain optimal.

For more than 15 years we have delivered unmatched quality and service levels to the health sector, with a consultative approach that educates our clients on the various options available to them at every step of the way.

We understand what it takes to run a successful medical practice and the best way to support you to continue providing exceptional patient care, achieve clinical outcomes, and collaborate with a network of affiliated services and referrers.

We can support you to reduce costs, manage risks, and minimise the distractions that impinge on the core operations of your practice by providing preventative care for your technology. From diagnosis, through to

treatment, and follow-up our team take ownership of issues so you can remain focused on your team and the patients they care for. We offer managed IT services, 24/7 remote monitoring, onsite and remote diagnosis, problem resolution, anti-virus/anti-spam software management, firewall protection, and more.

Our hosted solutions are proven with the best practice management tools available, including industry standards like Genie Solutions, Totalcare, Best Practice, and Shexie.

Envisage always provides a level of service to our clients that aligns with our own values and expectations, and I feel confident in recommending them.

Zipporah French - Director, Prescribe Practice Management

With Envisage, we have peace of mind that our systems and data are in the best hands. We don't need an in-house tech expert because the Envisage team are just a call or email away.

Todd Crowley - Managing Director, Vaxa Group

## We're always striving to be...

### Responsive

We're always there when you need us.

### Experienced
